EGERTON UNIVERSITY 22/09/2022 – 01/05/2026

Bachelor of Science in Computer Science

ST MARY'S GIRLS HIGH SCHOOL 01/2018 – 04/2022

Kenyan Certificate of Secondary Education (KCSE) : Final Grade: A-

PROFESSIONAL EXPERIENCE

Junior Software Engineer 2026

PRIORITY ACTIVATOR CONSULTING (PAC) • Westlands, Nairobi

- Participate in the design, development, testing, implementation, and maintenance of business applications and digital platforms.
- Developed an employee attendance and geofencing system supporting authenticated employee access and location-based attendance.
- Contributed to the ActiveHR/AttendPAC employee application, gaining practical experience in mobile application development and employee workflow systems.
- Developed and enhanced an e-commerce platform for Lielena Designs, including online shopping functionality and Chapa payment integration.
- Built TaskTracker and internal workflow systems to support task organization and operational efficiency.
- Worked across frontend, backend, database, and API/integration requirements when implementing application features.
- Troubleshot, tested, debugged, and maintained applications to improve reliability, usability, and performance.
- Used Git and GitHub for source-code management and development workflows.

ICT Intern May 2025 – September 2025

NAKURU COUNTY TEACHING AND REFERRAL HOSPITAL (PGH) • Nakuru, Kenya

- Supported and monitored hospital information systems to help maintain reliable access to digital services used in hospital operations.
- Provided first-line technical support, diagnosing and resolving hardware and software issues affecting users and ICT services.
- Performed routine server backups to reduce data-loss risks and support data recovery and business continuity.
- Assisted in troubleshooting network, connectivity, servers, switches, and network infrastructure issues.
- Assisted with CCTV system monitoring and maintenance, RJ45 termination, cabling, and ICT infrastructure support.
- Gained exposure to QTrack AI and X-ray image analysis technologies within healthcare.

Full-Stack Developer Jan 2024 – May 2025

EGERTON UNIVERSITY • Nakuru, Kenya

- Designed and developed a functional e-commerce platform for university students and staff.
- Built a Student Portal System for the Chinese Confucius Institute to improve access to academic information and services.
- Designed and implemented MySQL database structures supporting secure data storage and efficient information retrieval.
- Applied software engineering principles including MVC architecture, object-oriented programming, database design, and software testing.

Graphic & Software Design Sep 2022 – Dec 2024

TAJIKA CREATIVES • Kenya

- Developed web applications and digital solutions for clients based on their requirements.
- Contributed to digital projects involving user-facing applications and technology solutions.

SELECTED PROJECTS

Employee Attendance and Geofencing System: Developed an employee attendance platform incorporating authenticated login and location-based/geofencing controls.

ActiveHR / AttendPAC: Contributed to an employee management and attendance application involving mobile development, authentication, attendance workflows, and business application functionality.

Lielena Designs E-Commerce Platform: Developed an e-commerce platform incorporating product browsing, online shopping functionality, and Chapa payment integration.

TaskTracker: Developed a task management and workflow system designed to organize activities and support structured work processes.

Student Portal System: Designed and developed a student portal for the Chinese Confucius Institute to improve access to academic information and services.

E-Commerce System (Python/Django): Built a database-driven online store with product management and order-processing functionality.

Rental Management System: Developed a rental management application supporting tenant and payment management.

LEADERSHIP & COMMUNITY EXPERIENCE

Tech Challenge Kenya 2026 ; Judge July 2026

Served as a judge at Tech Challenge Kenya 2026, evaluating technology-related projects and engaging with participants around technology, innovation, and problem-solving.

Community Kids Coding Program ; Volunteer October – November 2025

Assisted in teaching basic computer skills to children aged 8–15 in Nairobi, Kenya.

TECHNICAL SKILLS

HTML5 · CSS3 · JavaScript · Bootstrap · Next.js · Expo · React Native · Python · Django · Java · C · PHP · MySQL · PostgreSQL · Supabase · REST APIs · Payment Integration · System Integration · SDLC · MVC Architecture · OOP · Database Design · Software Testing · Debugging · Hospital Information Systems · Network Troubleshooting · Server Backups · CCTV Systems · Git · GitHub · VS Code · NetBeans

LANGUAGES

English — Fluent

Swahili — Fluent

Chinese — Intermediate (HSK Level 3)

French — Basic
